

AquaConSoil

16-20 June 2025

Liège, Belgium

**Sponsorship and
Exhibition Brochure**

Welcome to AquaConSoil2025!

We are thrilled to announce that AquaConSoil2025 will take place in the city of Liège, Belgium, from June 16-20, 2025. We look forward to welcome you during a 4 day program packed with technical sessions, keynotes, panel discussions and of course: a vibrant exhibition.

We are excited to settle down in Liège for this edition, which will celebrate 40 years of AquaConSoil. The prestigious **Palais des Congrès de Liège** will be transformed into an epicenter dedicated to the sustainable use and management of soil, sediment, and water resources.

Our esteemed hosting partner, the **University of Liège**, boasts a strong reputation in environmental sciences, hydrogeology, and soil management. With numerous research groups and institutes focused on these critical areas, the university stands as a leading center of expertise, perfectly aligned with the themes of the AquaConSoil conference.

The AquaConSoil Exhibition is located at the vibrant center of the conference, ensuring high visibility and foot traffic. With catering served directly in the exhibition area, attendees will have ample opportunities to explore your offerings.

We hope to welcome you at our AquaConSoil2025, together with top researchers, industry experts, and policymakers from around the world. We look forward to create an atmosphere to share insights, foster collaborations, and drive forward the agenda of environmental sustainability.

On behalf of the AquaConSoil2025 Organizing Committee,

Siem Jansen
Project Manager of AquaConSoil 2025
Researcher/Advisor Soil & Groundwater at Deltares

About AquaConSoil

AquaConSoil is a biennial event where scientists, policymakers, decision-makers and industry representatives converge to learn, share insights, and engage on the sustainable use and management of soil, sediment, and water resources. Since its inception in 1985, AquaConSoil advanced and established itself as a premier platform for knowledge dissemination and collaboration.

Our Mission

Our mission is to promote sustainable solutions for the utilization and management of soil and water resources, by facilitating knowledge dissemination and fostering interdisciplinary collaboration. We are dedicated to addressing complex environmental challenges through a holistic approach that integrates scientific research, policy development, and technological advancements.

Our Community

AquaConSoil brings together a vibrant community of established scientists, thought leaders, policymakers and young professionals. With each biennial gathering, we expand our network and welcome new perspectives to tackle the evolving issues in environmental sustainability.

Our Focus Areas

The conference explores four pivotal themes to advance sustainable management of soil, sediment, and water resources. These themes encompass holistic approaches to soil and water systems, addressing ecosystem services, impacts of urbanization and climate change, and fostering community engagement (Theme 1). Innovative strategies are highlighted for remediating contaminated environments through advanced technologies and multidisciplinary collaboration (Theme 2). The integration of digital technologies enhances environmental monitoring, data management, predictive modeling, and ecological simulations (Theme 3). Methodologies like Life Cycle Assessment (LCA) and Life Cycle Sustainability Assessment (LCSA) integrate social, economic, and health perspectives to meet regulatory standards and enhance public engagement (Theme 4).

Fred Coulon - Chair of AquaConSoil:

"AquaConSoil is a catalyst for environmental innovation and stewardship, a platform where experts, regulators and public unite to discuss and explore sustainable solutions, mitigations and adaptation for soil, water and sediments resources."

What do we offer?

We offer a range of sponsorship and exhibition packages designed to provide maximum exposure and value for your company or organization. By becoming a sponsor or exhibitor, you will have the opportunity to:

- Showcase your products and services to a targeted audience of international experts in the field.
- Build brand awareness and increase your company's visibility.
- Establish new business relationships and partnerships.
- Stay up-to-date on the latest trends and technologies in soil, sediment, and water management.

Our sponsorship and exhibition packages are designed to fit any budget and marketing objectives. We offer a variety of options, including:

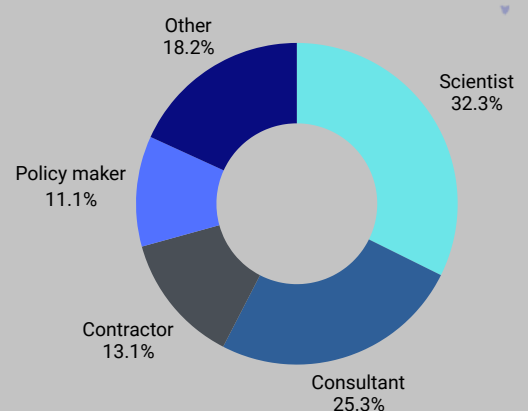

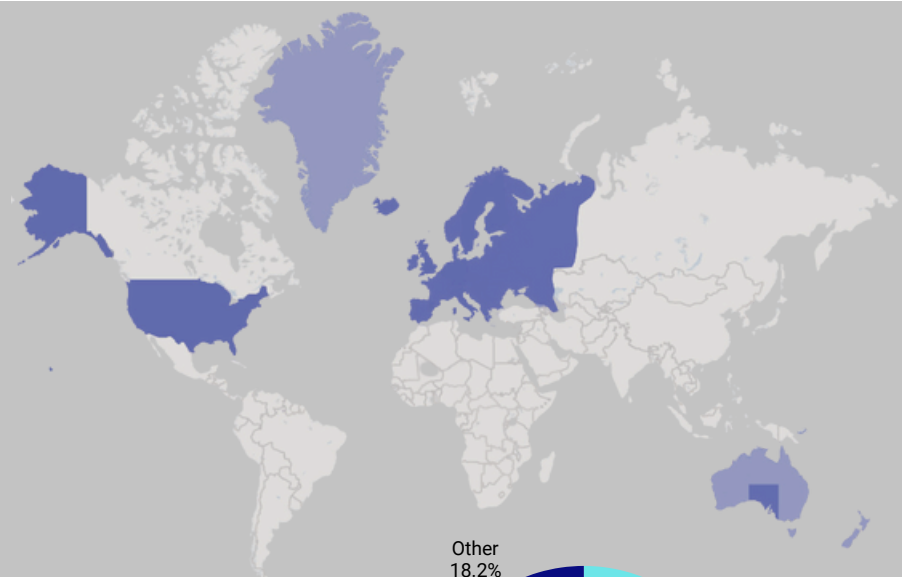

- Gold and Silver Sponsorship packages, which include exclusive branding opportunities.
- Exclusive additional sponsorship opportunities.
- Exhibition space, which allow you to showcase your products and services and engage with attendees.

Attendees

AquaConSoil 2023 attracted scientists, policymakers, consultants, and contractors from 31 different countries.

The event showcased a strong commitment from both young scientists and seasoned professionals.

Exhibition

We are offering prime exhibition space for companies and organizations looking to showcase their products and services to a global audience of environmental professionals. Exhibitors will have access to all conference sessions and events (conference diner excluded).

- A dedicated exhibition space in the heart of the event
- One complimentary conference ticket, granting access to all sessions and networking events
- Prominent recognition as an exhibitor in the conference program, on the website, and in promotional materials
- Exposure to a diverse audience of environmental professionals from around the world.

Why Exhibit at AquaConSoil 2025?

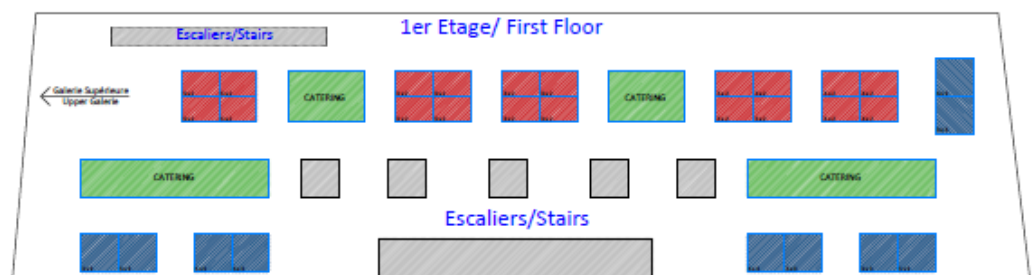

This year, the exhibition will be located at the vibrant center of the conference, ensuring high visibility and foot traffic. With catering, including coffee, tea, and lunch breaks, served directly in the exhibition area, attendees will have ample opportunities to explore your offerings.

Secure your spot and book now!

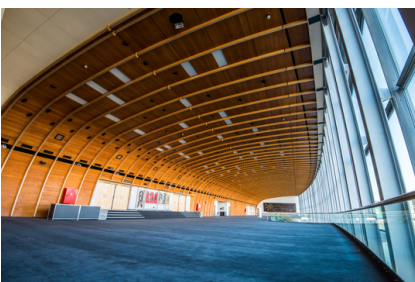

We invite you to be a part of AquaConSoil 2025 and showcase your products and services to a global audience of scientific professionals.

You can pre-book your exhibition spot here: [Pre-registration AquaConSoil 2025](#)

Locations will be allocated based on your preferences and consultation, in the order of registration—so secure your spot early for the best selection! Please note that the floor plan is subject to change.

See: [Grand Foyer](#)

How does it work?

1. **Choose Your Booth:** Indicate your preferred booth. Each booth comes with a standard shell scheme and basic furniture.
2. **Finalize Your Spot:** Booth locations will be confirmed after sharing the final floor plan. Spaces are allocated on a first-come, first-served basis.
3. **Customize Your Booth:** You will receive a webshop link where you can upgrade your booth with custom branding and additional items for a more professional look.
4. **Set Up at the Event:** Arrive at the venue, and get ready to showcase your products and services!

Our general terms and conditions, as published on our website, apply to all exhibitors.
